Work Experience

November 2015—October 2017

The Rug Company Finance Analyst

Worked as a part of a Finance team within the luxury goods sector, supporting CFO and operational staff by maintaining complex reporting standard through continued improvement of the current processes. Providing analytical perspectives to the important strategic decisions.

- Responsible for the preparation of the monthly board pack information to strict deadlines
- Reporting on the sales performance of all UK, USA, and European Showrooms and Franchise locations
- Production of complex monthly KPI reports using excel for all revenue streams incorporating Sales and Margin, and sales mix analysis
- Responsible for organising and reporting on quarterly stock counts in the UK and all other locations
- Preparing relevant month end and year end audit schedules

Successfully managed to automate data input process which allows to save on average 5 working days per month. Identified operational inefficiencies and recommended necessary improvements. Streamlined revenue analysis to a more accurate, efficient and automated process.

ITRS Group Limited Financial Accountant

Worked in a newly formed Finance team in a private equity software company, placing a specific emphasis on development of robust processes and controls to ensure the company is compliant with all applicable standards and legislation. Successfully optimised the processes within the cloud-based finance systems.

- Managing the expense software implementation
- Responsible for improvement and automation of the processes as a result of implementation of a new finance system
- Credit Control for Group AR ledger
- Responsible for maintenance of global monthly prepayments, accruals and fixed assets schedules
- Responsible for provision of P&L analytical reports to internal users
- Quarterly preparation and submission of group UK VAT returns & EC sales lists
- Preparation of Group year-end audit files and supporting schedules

Effectively managed the implementation of the cloud-based expense software which allows savings of around £80k per annum. Successful automation of processing of financial inputs which saves on average 2 working days per week.

Ten Lifestyle Management Assistant Accountant

Worked directly with management in the monthly compilation of financial & management accounts. Ensuring they are completed on time detailing all required information accurately and concisely from which financial decisions can be based. Working alongside the development team to ensure the smooth implementation and transfer of sensitive information to a new internal client management system. Acted as a project owner during 12 month roll-out period while successfully managing a range of snags.

- Responsible for the compilation and accuracy of management accounts' preparation for international branches
- Providing comprehensive financial training to front office staff
- Dealing with all aspects of purchase ledger
- All aspects of sales ledger, raising invoices, re-issuing invoices and raising credit notes
- Bank reconciliations
- Receiving and processing all invoices, expense forms and requests for payment

Accomplished in explaining company financial procedures to non-financial staff ensuring they understand all financial processes. Successfully introduced a new travel policy which included implementing new controls and this has resulted in greater efficiency and consistency in travel planning, helping the company become more financially efficient.

April 2011—April 2012
